

## Volcano settlement game

**True or false: why do people live near volcanoes?**

**Colour the True statements in green.**

**Colour the False Statements in red.**

*People live near volcanoes because they like fire.*

*People live near volcanoes because the soil is fertile and great for growing (olives, citrus fruit orchards, vineyards in Etna and Vesuvius).*

*People live near volcanoes because they like fireworks.*

*People live near volcanoes because of job opportunities from tourism.*

*People live near volcanoes because the landscape is beautiful.*

*People live near volcanoes because of the geothermal energy that can be produced from the underground heat.*

*People live near volcanoes because they don't want to pay for central heating*

*People live near volcanoes because it is where they are from and their family and friends live there.*

*People live near volcanoes because they are volcanologists (scientists studying volcanoes).*

*People live near volcanoes because there are often excellent mining opportunities - for copper, zinc, gold, silver and diamonds.*
