

Maths

Ll: To round numbers up to 7 digits

C: To the nearest 10, 100, 1000, 10,000

Jamie

Danny

Danny makes the number 712,458 from the digit cards on the desk.

Round the number to the nearest 100,000.

Round the number to the nearest 100.

Share

- a) To round the 100,000s digit you look at the 10,000s digit.

HTh	TTh	Th	H	T	O
7	1	2	4	5	8

712,458 rounded to the nearest 100,000 is 700,000.

I looked at the size of the digits to help me round the numbers.

I used a number line to help me work out which 100,000 it is closer to.

712,458

712,458 lies between 712,400 and 712,500.

712,458 lies closer to 712,500.

712,458 rounded to the nearest 100 is 712,500.

How do you round numbers?

Do you use the digits to help you or do you like to use a number line?

The multiples either side of the number are important to consider – remember that if you are rounding to the nearest 100, the answer has to be a multiple of 100.
